

ADVENTURES IN ARCHAEOLOGY

VOYAGES OF DISCOVERY

SET SAIL IN 2024

I am delighted to introduce our cruise programme for 2024. These tours offer a very civilised exploration of the ancient world combining our informative and enriching itineraries with the excellent comfort and attentive service of a small ship cruise. This formula has proved to be a great success and now in our fourth year of operation, our portfolio of programmes is growing. We now have 3 sailings this year which visit the Mediterranean and the Aegean Sea and 9 river cruises along the Nile, Rhone, Seine, Elbe and Guadalquivir & Guadiana in Spain.

The lynchpin and the heart and soul of these cruises are our wonderful tour staff, totally devoted to you, not only on site, but on board on all cruises alongside the attentive ship's crew, to answer questions and offer company when needed. Whether this is your first tour with us or your 30th, we are sure you will enjoy these established and new cruise programmes.

OUR AWARDS & ACCOLADES

The past year has been a tremendous one for us here at Andante. Not only did we win a Feefo 2023 Gold Trusted Service Award for excellence in customer service, but we also won a silver for the Best Travel Company to Italy/Western Mediterranean Islands. Plus of course, our very own John Shepherd won the Wanderlust World Guide Award - History & Culture 2023. Historically, we have also seen our tours included in National Geographic's 'Trips of a Lifetime' feature. Here's to continued success throughout the year!

Discover new depths to your favourite destinations

You gain a unique perspective when you explore a region from its waterways. Free from the obstacles imposed when travelling by land, you can sail in the wake of legendary heroes, glide along rivers once exploited by Viking raiders and traders, and admire the ingenuity of the engineers of the industrial age, making your way along canals which helped link river to ocean and continent to continent.

We can take you to places that bigger vessels simply cannot venture to as our small ships can sail right into port and stepping from river boat to shore is simplicity itself. This means more time not only to explore lovely port cities but to reach further inland and uncover hidden gems, as well as to soak up the sites and digest their stories.

Our excursions are always accompanied by an Andante expert Guide Lecturer exclusive to your party, and private on-shore transport is supplied whenever we require it. There are excursions included in virtually every port of call; the few exceptions are where we feel you would appreciate time to explore on your own or to enjoy the excellent amenities and relax on board.

UNFORGETTABLE EXPERIENCES

What do you get when you cross small-ship cruising with the expertise of an award-winning special interest tour operator? A superlative holiday!

Decades of knowledge go into crafting your holiday experience. We know what it takes to provide you with glorious memories, spiced with a little adventure to accompany them. You will be treated as a guest travelling among a party of friends and we will take care of you from first point of contact to your final goodbyes as a member of our ever-growing family.

We could publish a book with all the beautiful, heartwarming and often moving letters of thanks we have received over the years, not only from those who have fulfilled a long-desired ambition, but from those who have simply just had a really great time, and we can't wait to welcome you.

Benefits of small-ship cruising

On a small-ship cruise, you can stop at smaller ports and there will never be too many people getting off ahead of you. Fewer lines and less crowds are always a benefit. This is especially relevant to our archaeological and historical cruises because the locations of the sites themselves often tend to be in remote places that are more challenging to reach, and when you add major ports with large ships stopping at them to the equation, you have the problem of thousands of other passengers disembarking at the same time.

Another highlight of taking a cruise on board a small vessel is the individualised attention and excellent service, something you can look forward to on our trips. With a smaller number of passengers to get to know, it's easier to build rapport with members of staff, which inevitably enhances the overall experience of your cruise. From special requests to how you like your morning coffee, a more personalised service is at the heart of this type of cruise.

Enjoying this type of holiday also comes with the added bonus of beautiful scenery. Depending on the cabin you choose, the view can be admired from your window or while you relax on the top deck as you sail between stops, and there will be minimal unpacking – another relaxing element that makes cruising such a popular way to travel.

Imagine cruising along the Nile, stepping ashore to explore the legendary Valley of the Kings and the staggering Abu Simbel temple complex in Egypt, or discovering iconic sites associated with mythology in Greece. With Andante Travels, you can.

Onboard experience

Every day is different on a small-ship cruise and you can be as busy or as relaxed as you choose to be. We have some full days of site visits, making the most of what there is to see, some more relaxed days with half-day excursions and some days spent sailing.

As we've mentioned, there are many benefits to taking a cruise as opposed to a land-based tour. One of these has to be the pleasure of not having to pay every time you want a glass of wine (and not having to remember whose round it is). The vast majority of our cruises are fully-inclusive, with a wonderful variety of food on board, and some itineraries include welcome drinks receptions on the first day. More information about this can be found on each tour's specific page within our brochure.

Life on board will be very comfortable, with fantastic standards of cleanliness upheld and great attention to detail shown at every turn. Smaller ships also mean smaller passenger numbers, which in turn means there will always be somewhere to relax throughout your cruise - relaxation is at the heart of the experience! Cabins all have ensuite bathroom facilities in addition to TVs and other modern amenities, and our cruises typically have a selection of decks to choose from, meaning there is something on offer to suit every budget.

Our cruises are mostly led by renowned Andante Guide Lecturers, who are part of the group rather than simply a leader - someone with whom to converse and laugh with at meal times, as well as someone who is there to share their academic expertise.

The cruises on offer have a slower pace, allowing you to sit back and really take in your surroundings with everything taken care of, but they are still filled with fascinating visits, memorable experiences and all the elements that create lasting holiday memories.

Our superb expert guides

We see things differently! All of our guides have an incredible breadth of knowledge, a passion for their specialism and an admirable ability to convey information in an entertaining and engaging way. These are not just guest speakers who lecture on board, but experts who will accompany you offshore and shine a spotlight into the hidden corners and farthest reaches of the places you visit. With our guides you will always enjoy an intimate and privileged introduction to the destination you have chosen.

JUST A SMALL SAMPLE OF THE LOVELY FEEDBACK WE RECEIVED ABOUT OUR GUIDES IN 2023:

"The tour delivered on all levels for me. Time onboard was relaxing and time spent visiting the ancient sites was long enough to gain better insight into their construction and histories. We were looked after really well and enjoyed every minute."

Egypt - Cruising the Nile - Cairo to Aswan - Guest, April 2023

"Fantabulous! Luxurious riverboat with great staff and lovely food. Our engaging and informative guide Nick Jackson brought history alive building up the story of the Hanseatic League over the week until the story was made whole in Lübeck at the Europäisches Hansemuseum on the final day. I would have been happy to spend another week on the boat!"

The Wealth & Wonders of the Hanseatic Cruise - Guest, July 2023

"The ship was excellent; everything was well-organised; the Tour Manager was outstanding, and the Guide Lecturer Eireann was well-informed, entertaining and engaging. The sites we visited were extremely interesting and sometimes eye-opening."

Cruising the extraordinary Island of Corsica - Guest, September 2023

"Miranda was a superb tour manager and looked after us so very well. I couldn't have asked for anything more from her."

From river to sea

THE RHÔNE

Flowing from the heights of the Swiss Alps, the scenic and often wild course of the Rhône is shaped by the influences of the mountains, right down to the river mouth, where sediments marking the Rhône's birth in an Alpine glacier are carried into the warmer waters of the Mediterranean.

This beautiful region of France has long been a draw for artists and art lovers and its exceptional vineyards are a mecca for wine enthusiasts the world over. The river's delta which begins near Arles, encloses the Camargue, a habitat rich in wildlife from flamingos to wild ponies and as the Rhone linked the great Roman settlements – Arles, Orange, Nîmes and Lugdunum (modern day Lyon) - here is plenty of wonderful Roman sites to discover.

THE GUADALQUIVIR

Rising in the mountains of Jaén province, the Guadalquivir follows a western course through Andalucía, before emptying into the Atlantic Ocean on the Gulf of Cadiz. Acting as a conduit of trade and culture for millennia, it is from here that ships first set sail to the New World eventually spreading untold wealth to Seville, Cadiz and the rest of the world.

For Arab poets, Andalucía was “the land on the brink of paradise”. It is famous for its beautiful Moorish inspired architecture, but it was also enriched by the gold that came from the Americas evident in the UNESCO listed sites clustered in the cities of Seville and Granada.

THE GUADIANA

Running the length of Portugal's south-eastern border with neighbouring Spain, the Guadiana flows west, meandering through some of the most picturesque landscapes in the Iberian Peninsula before spilling into the Gulf of Cadiz. Its fertile banks are dotted with sleepy villages and river beaches with the backdrop of green hills and cork oak forests, like the charming hillside town of Alcoutim, a hidden gem of inland Algarve.

THE ELBE

Rising in Czech Republic's Krkonose mountains, flowing through eastern Germany and emptying into the North Sea, the Elbe is one of Europe's most important waterways. It was fundamental to the development of the Hanseatic trade in the 14th century, linking a number of important cities.

Travelling from Berlin, the river will take you from the city where the past and present intermingle in striking contrast, to the maritime capital of the north, Hamburg, full of cosmopolitan charm and cultural riches. Along the way, the Elbe runs through tranquil floodplains, pastoral landscapes and historic half-timbered medieval towns.

THE SEINE

The Seine emerges in the hills of the Cote d'Or at a remote spot in Burgundy, about 20 miles north of Dijon. Remains of a Gallo-Roman sanctuary have been found at its source, dedicated to the Celtic goddess Sequana, after whom the river is likely to have been named. Curving through Paris, the river flows lazily northwest in sweeping loops across Normandy to the coast where it empties into the English Channel. This route, navigable by sea vessels, then barges, into the heart of the country has played an important role in the history of France from Viking invasion to the battles of the Middle Ages and World War II.

THE NILE

Also known as the Father of African rivers, the Nile rises in the waters that flow into Lake Victoria and empties into the Mediterranean Sea more than 4,000 miles to the north. It reaches its widest point in Egypt, and it is here that the stage was set for the evolution and decay of advanced civilizations in the ancient world. Here the great cities of the pharaohs were built, the gigantic stones used to build them transported by river barge. For thousands of years the river has served as a means of transportation and continues to do so to the present day.

THE AEGEAN SEA

The Aegean Sea is an arm of the Mediterranean between Greece and Turkey and the birthplace of two fascinating ancient civilisations: the Minoans of Crete and the Mycenaeans of the Peloponnese. It features prominently in many of the most famous Greek Myths (Icarus and Daedalus, Theseus, Jason and the Argonauts) and cruising here is to follow literally in the wake of many legendary heroes.

THE TYRRHENIAN SEA

Located off Italy's western coast, the Tyrrhenian sits between the Italian Peninsula and the islands of Sardinia and Corsica. Throughout history, many battles have been fought for controlling this strategic body of water and it was the backbone of international trade in the medieval period, fraught with dangers as pirates continuously tried to gain complete control of its waters. It contains the beautiful Tuscan Archipelago, a chain of islands formed from the necklace of Venus according to Greek mythology, wraps around the craggy island of Corsica, laps the shore of the stunning Amalfi coastline and circles Sicily at the gateway to Africa.

ADRIATIC SEA

Celebrated for its warm temperatures and calm waters, the Adriatic Sea is the Mediterranean's northernmost arm separating Italy and the Balkan Peninsula. In antiquity, Adriatic shores were settled by Greek colonists and, as Rome expanded, it became a Roman 'lake' within a wider Mediterranean lake.

Day One | London - Nice

Today we fly from London to the famously stunning city of **Nice**. Founded in 350 BC by Greek Phocaeans from Massilia, Nice quickly became one of the most important ports on the Ligurian sea. In the late afternoon, time permitting, we have an orientation walk around the city which has been a favourite destination for travellers including Queen Victoria, as well as artists such as Matisse.

Day Two | Nice

We spend the day in the resplendent city of Nice, exploring its ancient roots. We start with a visit to the ancient Roman site of **Cemelenum** founded by Augustus in order to protect the Via Julia. Here, in modern Cimiez, we visit the **archaeological museum** before examining the remains of the **Roman baths and amphitheatre**. We end the morning with a visit to the cathedral in Cimiez and the neighbouring cemetery where the artists Matisse and Dufy are buried. After lunch, we go to the **Terra Amata Archaeological Site**, one of the most important Lower Palaeolithic sites in Europe, dating perhaps to 380,000 BC. In the late afternoon, we drive to the port of Nice where we board our ship, the MS Belle des Océans.

Day Three | Ajaccio

We spend the morning cruising across the Ligurian sea to Corsica, taking in the crystal-clear waters, while having an informal lecture on the long and varied history of the island. In the afternoon, we dock in Ajaccio, the Phocaeen Greek city named after Ajax the Lesser and later renamed *Adiacium* in the Roman era, but

which is today most famous for being the birthplace of Napoleon Bonaparte, whose family arrived in the city from Genoa in the 16th century.

Exclusive Andante excursion: In the afternoon, we make our way to the **Fesch Museum**, begun in 1827 by Cardinal Joseph Fesch, Napoleon's maternal uncle, who had ambitions of establishing an Institute of Arts and Sciences in his home city. He donated a stunning collection of paintings to the museum, including works from the Italian Renaissance, notably paintings by Botticelli, Perugino, Bellini, and Titian. The palace also incorporates the tomb of Napoleon's mother Letizia Ramolino.

Day Four | Ajaccio

We awake in Ajaccio where the ship is docked. In the afternoon, we have some free time in Ajaccio before we make our way to Bonifacio overnight.

Exclusive Andante excursion: This morning we drive to the most extraordinary of Corsica's archaeological sites, **Filitosa**, which is dramatically set in an ancient olive grove. Filitosa was settled in the Neolithic period, though is famed for its spectacular Bronze Age menhirs which have human features and weapons carved on them. These apotropaic menhirs were reused by later Bronze Age peoples today referred to as Torreans who built well preserved torri, or fortresses, reminiscent of Sardinian nuraghi underlining how affluent the island was in the period.

Day Five | Bonifacio

Today we find ourselves in the lovely city of Bonifacio, located on the southern tip of Corsica, separated just a strait away from Sardinia. The city is dominated by its citadel whose 9th century foundations have been covered over by years of history. In the afternoon we will have a chance to enjoy its charms, visiting the citadel before we set sail in the evening for Porto Vecchio.

Exclusive Andante excursion: We travel this morning to the stunning archaeological site of **Cucuruzzo**, an off-the-beaten track site which encompasses a Bronze Age fortified village dating to the 12th century BC, whose principal monument is its *casteddu*, or fortification, for which southern Corsica is famed. A short distance away, we visit **Capula**, which was inhabited until the medieval period, and which wonderfully preserves a Bronze Age fortress, giving us a precious glimpse of Corsica before the period of Genoese domination.

Day Six | Porto Vecchio

Having sailed through the night, today the ship is docked in Porto Vecchio, founded in the 16th century by the Genoese as a defensive port. Today it is a fashionable destination for its charming, historical old city centre. In the afternoon, we sail to Bastia.

Exclusive Andante excursion: After breakfast, we drive to the little-known archaeological site of **Ceccia**, located a short distance from Porto Vecchio. Placed on a rocky spur, the site was inhabited in the Neolithic period before reaching its apogee in the Bronze Age when a *torre* was built, along with a circular hall. We then travel to the nearby archaeological site of **Tappa**, inhabited from the 4th millennium BC and abandoned in the mid-2nd millennium, in the middle Bronze Age. This site is again dominated by a circular torre, with an adjacent rectangular corridor.

Day Seven | Bastia

This morning we find ourselves docked in Bastia, a city which contained the Roman city of *Cardo*, and which was developed in the Genoese period. Today it is Corsica's principal port, known for its wine. In the afternoon we travel to the Terra Nova citadel, with an optional visit to the **Museum of Bastia**, set in the old palace of the Genoese governor and which includes artefacts from antiquity. Tonight, we sail to L'Île Rousse.

Exclusive Andante excursion: After breakfast on board our ship, we drive along the Eastern Coast of Corsica, which was colonised, in turn, by Phocaeen Greeks, Etruscans and Romans, and visit the Roman site of **Aleria**, called *Alalia* by the Phocaeans. Near the site, we visit the **Jérôme Carcopino Museum** which testifies to the site's rich history, with artefacts from the Iron Age, Greek, Etruscan, and Roman periods.

Day Eight | L'Île Rousse

On our last morning in Corsica, we land at **L'Île Rousse**, dubbed *Rubico Rocega* in the Roman period and which later developed as a fortress in the 18th century by the Corsican patriot Pasquale Paoli who fought against Genoese domination. We drive a short distance to **Calvi**, a city established in the Genoese period and famous for being the site of notable sieges, including Nelson's capture of the city in which he lost his eye. Our visit centres around the evocative 13th century fortress with its historic, cobbled streets, dominated by the Cathedral of St. John the Baptist. In the afternoon, we sail to Nice.

Day Nine | Nice - London

Time permitting, we will continue our exploration of Nice before taking our return flight to London.

Please note that the itinerary can be subject to change before the cruise departs or during the cruise depending on adjusted sailing times and/or any port restrictions.

Day One | London – Paris - Poissy

We depart from London aboard the Eurostar, and speed across the channel to the Gare du Nord. From here we transfer to our boat moored on the Seine. This evening we will enjoy a cocktail before dinner on board; the ship will set sail through Paris tonight en route to Poissy.

Day Two | Poissy - Versailles - Honfleur

Arriving in the morning at Poissy, we disembark and join other Croisi passengers as we make our way to **Versailles**. Originally a hunting lodge and rural retreat, Versailles was transformed into the magnificent Baroque Palace we see today by Louis XIV when he made it his seat of power, moving his court and government there in 1682. One of the most celebrated architectural achievements in the world, its creation stimulated a mini renaissance of interior design during the 17th and 18th centuries and was accredited with UNESCO World Heritage status in 1979. After a morning of artistic opulence, we return to our boat and settle in to relax on board as we sail onward to Honfleur.

Day Three | Honfleur - Rouen

Our first visit today is **Honfleur**, the prettiest of the Normandy ports, with its tall, slate fronted houses shouldering each other on the yacht filled harbour. For centuries Honfleur was a prosperous trade and fishing port, a strategic asset in the Hundred Years War and in the 17th century, the port from which French navigators set out to explore the New World and ultimately establish Quebec. Much of its historic heritage is intact and we will take a guided walking tour through the town to explore its medieval and industrial past.

Exclusive Andante excursion: In the afternoon we take a trip out to **Lillebonne**. Occupied by the Romans during the Gallic Wars, the town was called Juliobona in Caesar's honour and evidence suggests it was a large

and prosperous town. The large number of potsherds and amphorae excavated here suggests the city conducted vigorous trading with imported wines, oil, and olives coming from the Mediterranean regions. The city boasted a large theatre designed to seat at least 3000 people and we shall explore its remains as well as the small **archaeological museum**.

Day Four | Rouen - Paris

Having sailed overnight we arrive in the city of **Rouen**, capital of the northern French region of Normandy.

Exclusive Andante excursion: This morning we explore Rouen, once an important river port and centre for textiles. The city is steeped in history and today we see a vibrant and compelling mix of modern architecture, crooked medieval half-timbered houses, Gothic churches, celebrated restaurants, antique shops, food markets and patisserie selling multicoloured macarons. Our main focus of the morning is the **Musée des Antiquités**. Installed around the cloister of the former monastery of the Visitation Sainte-Marie, the museum's collections include exceptional pieces, from antiquity to the Renaissance including the Roman mosaic of the hunt from Lillebonne. This afternoon we set sail once again and settle in to enjoy the scenes unfolding and relax on our return journey to Paris.

Images top to bottom: Rouen

Day Five | Sainte Chapelle & Musée de Louvre

This morning our cruise ends, and we disembark for further adventures in Paris. First, we visit the Ile de la Cite. This area of Paris is home to more than its fair share of famous sights, but our goal is the infamous Palais de Justice and hidden within it, **Sainte Chapelle**. This architectural masterpiece was built to accommodate holy relics acquired by Louis IX in 1239 and it ranks as one of the greatest examples of Gothic art in France alongside the cathedrals of Notre Dame Cathedral and Chartres. We continue to the **Conciergerie**, formerly part of the palace complex but repurposed during the Revolution as tribunal and prison. We end the day at the **Musée de Louvre** where we will view the Etruscan, Greek and Roman galleries, one of one of the richest collections in the world.

Day Six | Arènes de Lutèce & Catacombes de Paris

This morning we explore the city's Romano Gallic origins with a visit to the **Arènes de Lutèce**, site of the Roman amphitheatre. Built in the 2nd century AD it was designed to seat up to 15,000 people. In the afternoon we visit the **Musée de Cluny** where we visit the Roman baths that lurk beneath the museum. We end the day with a visit to the **Catacombes de Paris**. After several years of modernization and accessibility work, the museum reopened in May 2022 with a brand new museography.

Day Seven | Paris - London

We leave Paris behind, and speed northwards across the channel by Eurostar back to London.

Please note that the itinerary can be subject to change before the cruise departs or during the cruise depending on adjusted sailing times/and or any port restrictions.

Day Six | Avignon - Arles

Built in the 1st century AD, it carried water from Uzès to ancient Nemausus, a masterwork of Roman engineering, which remained largely intact because of its use as a customs bridge. Tour Highlights

- Enjoy three days exploring the delights of Berlin, from its medieval roots to its modern brilliance
- Explore the charms of Lüneburg with its preserved medieval industrial centre and cobblestone squares
- Visit Luebeck, the Queen of the Hanseatic city, with its well-preserved medieval city centre, including priceless brick Gothic buildings, such as St. Mary's Church

Day One | London - Berlin

After arriving in Berlin, we transfer to our hotel and time permitting we enjoy an orientation walk in the city.

Day Two | Berlin

This morning we wake in Berlin, ready to examine its Hanseatic history. Founded in 1170, it has been ambitious from the start, quickly becoming one of the most industrious Hanseatic traders that helped the city to become what it is today. We start at the **Church of St. Nikolai**, the first church built in Berlin, located in the evocative **Nicholas Quarter**, which houses a series of restored medieval buildings. We continue to the 13th century **Franciscan Monastery**, whose ruins make its brick gothic architecture even more evocative. This evening we join our ship and prepare to embark on our cruise.

Image: Magdeburg, Germany

Day Three | Berlin - Nedlitz

Having established itself as a vibrant 'new town', Berlin continued to grow in influence from the 15th century onwards. Under the rule of the Hohenzollern, it grew to European and then world city.

Exclusive Andante excursion: We set the scene by exploring Berlin's highlight sites from the outside, starting at the site of the newly rebuilt town palace, once the royal palace of the Hohenzollern from the 15th to 20th centuries, to the Brandenburg Gate, taking in the Opera House and Humboldt University on the way. In so doing, we will explore Berlin's rise to power, from being first the Prussian and then German capital, a biography of the city that would dominate the 20th century. In the afternoon, Nick Jackson, who lives in Berlin will take you to Potsdam to visit the inimitable **Sanssouci Palace**, the rococo summer dwelling built in order to provide Frederick the Great with an escape from the demands of court life, hence its French soubriquet meaning without worry.

Day Four | Brandenburg - Magdeburg

We spend the morning cruising down the Elbe, which has always been navigable by commercial vessels and which, therefore allowed Hanseatic cities to be linked. After lunch on board we land in Hohenwarthe from where we depart on our afternoon excursion. In the evening we cruise towards Wolfsburg.

Exclusive Andante excursion: Magdeburg, badly damaged during the Second World War, has a core of medieval buildings which bring its Hanseatic history to life. Founded by Charlemagne, the city rose to become one of the most powerful Hansa cities, evident in its cathedral dedicated to saints Catherine and Maurice, one of the oldest Gothic churches in Germany and the largest in Eastern Germany. We continue to the **Buttergasse**, a vaulted cellar that lies in the heart of the Alter Markt, which we view from the outside. We visit the **Monastery of Our Lady**, founded in the 11th century, which remains one of the city's best preserved Romanesque buildings.

Day Five | Wolfsburg - Lueneburg

We arrive at Wolfsburg this morning and depart soon thereafter to make the most of our visit. In the afternoon we cruise towards Lüneburg, where we dock for the night. **Exclusive Andante excursion:** We drive a short distance to Braunschweig, today an important centre for research and development and

once an important member of the Hanseatic league. We start with a view of the Burgplatz, where we see the Veltheimsches Haus, a 16th century half-timbered seigniorial house with remarkable decoration. We also see the Dankwarderode Castle, once the home of the Dukes of Braunschweig, as well as the Cathedral of St. Blaise and John the Baptist, built in the 12th century by Henry the Lion and the burial place of Caroline of Brunswick, wife of George IV. We end our tour in Braunschweig with a visit of the Altstadtmarkt, which houses the Gewandhaus, guild house of the tailors.

Day Six | Lueneburg - Hamburg

We awake in Lüneburg and later cruise towards Hamburg, where we dock for the night.

Exclusive Andante excursion: This morning we explore Lüneburg, one of the oldest cities in the region, which developed a monopoly on salt in the early medieval period, something that ensured its wealth due to the importance of the trade in pickled herrings. One of the few cities in the area not damaged in the Second World War, Lüneburg preserves much of its medieval charm. We start the tour with the Alter Kran, the 14th century crane over the river harbour, which helped to transport salt to Luebeck. From there we walk to the Stintmarkt, the medieval fish market and then to the Am Sande Markt, a medieval market home to St. John's Church, the city's oldest. In the afternoon we visit Hamburg Museum, housed in the **Hamburg Castle**, which recounts the city's rise to power in the time of the Hanseatic League.

Day Seven | Hamburg

Today we wake up in Hamburg, one of the largest and most important cities in Germany despite a series of historic manmade and natural disasters, including fires, floods and the Second World War. Its importance in the Hanseatic League is fossilised in the city's name, the Free and Hanseatic City of Hamburg. The ship is docked the whole day here.

Exclusive Andante excursion: We spend the whole day in Lüneburg, starting with the **Museum of the Hanse**, the most significant of its kind and housed in a Dominican friary. After lunch, we explore the World Heritage city on foot, visiting the twin-towered 15th century Burgtor and continuing to the Heiligen-Geist-Hospital, one of the world's oldest social institutions, before exploring the 13th century Marienkirche. We end the day at the Holstentor, whose characteristic architecture is famed throughout Germany.

Day Eight | Hamburg - London

This morning we disembark our ship and make our way back to the UK.

Please note that the itinerary can be subject to change before the cruise departs or during the cruise depending on adjusted sailing times and/or any port restrictions.

Day Four | Cádiz

This morning we are in Cádiz, the important port which lays claim to being one of the oldest continuously inhabited cities in Europe. Located on a spit of land surrounded by sea, Cádiz retains an old quarter which bears the remains of its ancient past.

Exclusive Andante excursion: Today we explore the important city of Cadiz founded by Phoenicians in the 9th century BC. We start with the **archaeological museum**, which contains an important collection of artefacts from the city's vast history, before proceeding to the **Roman theatre**, built in the 1st century BC and once one of the largest theatres in the empire. Exclusive Andante excursion: This morning we visit the 13th century **Moorish castle at Alcoutim**, whose imposing position on the right bank of the tributary river of San Marcos made it an important site from the Neolithic period onwards. Cruising Upper Egypt

Beyond the High Dam; from Lake Nasser to Luxor

14 DAYS

From £7,191pp

Departing September

Embark on a fascinating journey through Upper Egypt and the land of Nubia, from Lake Nasser to Luxor, once ancient city of Thebes. Sailing across the serene waters of Egypt's vast reservoir gives a very different perspective to our cruise further along the Nile. The West Bank's shallow shore line attracts wild birds and their predators, and the East Bank is rugged and mountainous with an 'other worldly' desert landscape. The sites beyond the High Dam include the breath-taking, cliff face temple complex at Abu Simbel and the unfrequented sites of Amada and Wadi El Sebouath. We continue after the High Dam from Aswan along the felucca dotted river, through desert villages and dotted with feluccas to Luxor with its wealth of fabulous ancient sites.

Steigenberger Omar El Khayam

This Nile cruiser is comparable to a 5* hotel and has six decks. The Abu Nawas Restaurant on the Mian Deck is where all meals throughout the cruise are served, and there are three lounge bars located across different decks, perfect for a refreshment and review of your days adventures. Day One | London - Cairo

We depart from London and arrive in Cairo – this buzzing, energetic metropolis that is Egypt's extraordinary capital and a city that Egyptians admirably refer to as 'the Mother of the World'. We transfer to our hotel for our first night in Egypt.

Day Two | Saqqara & Memphis

Most of our first day is devoted to **Saqqara**, the vast necropolis to the ancient Egyptian capital of Memphis and one of the most archaeologically important sites in Egypt. We will discover the incredible **Step Pyramid of Djoser** and the smooth-sided **Pyramid of Unas**, the **Mastaba of Mereruka** and some of the lesser-visited parts of this sprawling necropolis. We will see the recently opened tomb of the nobleman Mehu and visit the **Serapeum**, catacombs for the sacred Apis bulls. Later in the afternoon we visit **Memphis**, founded over 5,000 years ago and which served as the country's capital during the Old Kingdom. Today this bustling ancient city is reduced to an open-air museum, its highlight the extraordinary fallen colossus of **Ramesses II**.

Day Three | Giza

This morning we visit the pyramid complexes on the Giza Plateau starting with the only surviving representative of the Seven Wonders of the Ancient World: the **Great Pyramid** towering some 487 metres above the plateau. We also explore the Valley Temple of Khafra and the enigmatic **Sphinx**, whose limestone form has occupied this spot for more than 4,000 years. In the afternoon, we enjoy a visit to the **Great Egyptian Museum***, the new crown jewel of Egypt and one of the largest in the world.

Day Four | Cairo - Abu Simbel

We take a morning flight from Cairo to **Abu Simbel** in Upper Egypt where we transfer to our Nile cruiser, the Steigenberger Omar El Khayam.. After some time for lunch, rest and relaxation, we will visit the world-renowned Nubian site at Abu Simbel. Miraculously rescued from Lake Nasser's rising waters after the creation of the High Dam and rebuilt on the western bank, the two massive rock temples of **Ramesses II** and his favourite queen, **Nefertari**, were originally carved into the mountainside in 1244 BCE to honour the deified royal pair and to awe the Nubians. Today, the site still inspires awe and is quite simply spectacular. After our site visit, we transfer to join our Nile cruise ship for lunch and an afternoon of relaxation.

Images top to bottom: Valley of the Kings tomb detail

Day Five | Lake Nasser

This morning we sail across Nail Nasser to the once powerful city of **Kasr Ibrim**. The remains of its enormous citadel which once overlooked a stretch of the flood plain in the Nile river valley below, now break the surface of the waters of Lake Nasser. The site is no longer safe to visit but can be viewed from the safety of our cruise ship. We continue to the **Temple of Amada**, built during the co-regency of Thutmose III and Amenhotep II in the 15th century BCE. Its exterior looks unimposing, but the innermost section of the temple has very fine reliefs and several important historical inscriptions. We end the day at Wadi El Seboua where we will overnight.

Day Six | Lake Nasser

After breakfast we disembark to explore the site of **Wadi El Sebouath** 'Valley of the Lions' so called because of the sphynxes which guard the route to the pylon. Built in honour of Rameses II in the later part of his reign and dedicated to Amun and Ra, the site consists of the surviving set of pylons and the rock cut part of the temple. The interior has many fine reliefs and there are two colossi of Ramses, one upright, one fallen. After lunch on board, we continue to Aswan where we will overnight.

Day Seven | Aswan & Philae

After breakfast we check out from our Nile cruiser and embark on the first of our site visits in Aswan. First, we explore the **Quarries**, famous as the source of pink granite which was widely used in many pharaonic monuments. We see the spectacular 'Unfinished Obelisk, some 42m long and weighing approximately 1,197 tons. Had it been successfully removed from its site it would have been the largest such obelisk ever quarried. From here we continue to the atmospheric ruins of Philae, the Ptolemaic island temple, a labyrinthine complex of chapels and shrines which were originally dedicated to the goddess Isis. To nineteenth century travellers, **Philae** was 'the pearl of the Nile' set on its own island, with just enough vegetation to make this the archetypal romantic ruin.

Day Eight | Qubbet el-Hawa

We spend the morning exploring the lives of the ancient inhabitants of this frontier town, their houses, temples and tombs. We visit the richly inscribed rock-cut tombs at **Qubbet el-Hawa** where important local

inhabitants were buried including Harkhuf, who was so proud of a letter sent to him by the boy-king Pepi II, that he had it inscribed on the façade of his tomb. After a local lunch, the afternoon is free to enjoy at leisure.

Day Nine | Elephantine Island

This morning we check out of hotel and visit the settlement and temple site of **Elephantine Island**. This was the cult place of the ram-headed god Khnum, a creator god associated with the Nile and the first cataract and potters. We will explore the remains of the temples of Khnum and Satet, and their associated Nileometers (for measuring the Nile flood levels). After our visit we join the Nile cruiser, the Steigenberger Regency for the second part of our cruise. We will have lunch on board before making an excursion to the **Nubian Museum** in the afternoon. This evening we enjoy a sunset felucca trip before dinner and overnight on board.

Day Ten | Kom Ombo - Edfu

Setting sail early this morning, we travel to Kom Ombo. Here we will explore the **Temple of Sobek** and **Horus the Elder** and the site's **Crocodile Museum**. The partially restored remains of Kom Ombo's Ptolemaic temple stands dramatically above the Nile and its situation overlooking the river, is particularly picturesque. It is peculiar in its double dedication, reflected in its perfectly symmetrical layout. Continuing our journey to Luxor, we stop en route to explore the **Temple of Horus at Edfu**. One of the country's most magnificently preserved shrines, the construction of which is thought to have spanned an incredible 180 years, from the 3rd to the 2nd century BC. Towering at a jaw-dropping 37 metres, its pylon - or gateway - is the highest among all of Egypt's surviving temples and is decorated with vivid scenes of King Ptolemy VIII destroying his enemies before Horus. The complex even houses a Nilometer, a structure made to measure the depth and clarity of flooding Nile waters. This evening we arrive at Luxor.

Day Eleven | Valley of the Kings

A full day of site visits today as we make the most of our time in Luxor. We go first to the **Colossi of Memnon**, two enormous statues of 18th Dynasty Pharaoh Amenhotep III which captivated the imaginations of curious travellers for millennia. We continue to nearby **Deir el-Bahari** where we visit the impressive colonnaded Temple of Queen Hatshepsut, mortuary temple of the only female Pharaoh. Next,

we visit the Valley of the Kings. Here on the west bank is the necropolis area reserved for royal burials from around 2100 BCE, but it was the Pharaohs of the later New Kingdom period, who chose these once remote desert valley sites for their grand rock-cut tombs. Of over 60 tombs discovered in the **Valley of the Kings**, only a small number are open to the public and we enter a selection of these, including the tomb of Tutankhamun.

Day Twelve | Karnak

After disembarking from our Nile cruiser, we lose ourselves in the captivating complex of **Karnak**. This is a spectacular multi-period location with a wealth of religious and historical inscriptions at every turn. In addition to its religious significance, it also served as a treasury, administrative centre, and palace for the New Kingdom pharaohs. Added to by generation after generation of pharaohs over a period of 1500 years, it's a dazzling maze of monumental gateways, obelisks, pillared halls and subsidiary shrines. From Hatshepsut, Seti I and Rameses II to the Ptolemies, Romans, and early Christians; all have left their mark here. This afternoon we will visit **Luxor Museum**. This is an absolute gem; artefacts are perfectly displayed and among its many highlights you will find an alabaster figure of Amenhotep III protected by the great crocodile god Sobek; a strikingly beautiful statue of King Tutmosis III and one of the few examples of Old Kingdom art found at Thebes, a relief of Unas-ankh.

Day Thirteen | Luxor - Cairo

We check out of our hotel this morning and finish our site visits in Luxor starting at the village of **Deir el-Medina**. This is a special place because here, perhaps more than anywhere else in Egypt, we come closest to the daily lives of a group of individuals living in a community. This was the settlement of the craftsmen responsible for constructing the tombs in the Valley of the Kings, and as such employees of the state. This afternoon we transfer to the airport and return to Cairo, where a farewell dinner awaits this evening.

Day Fourteen | Cairo - London

Today we catch our return flight back to London.

Please note that the itinerary can be subject to change before the cruise departs or during the cruise depending on adjusted sailing times and/or any port restrictions.

Day Six | Luxor

The **Valley of the Kings** awaits us today. This was the final resting place of royals and nobility for almost 500 years, with excavations dating the site back as far as the 16th century BC. Egypt Encompassed

From Pharaohs to Caesars

19 DAYS

From £12,753pp

Departs November

Howard Carter's description of his first sight into Tutankhamen's tomb is also a fitting description of Andante's exploration of the archaeology of this amazing country. Egypt is indeed a land of 'wonderful things', a country where adjectives are insufficient to describe the monuments and experiences which are not to be found anywhere else in the world. While certain images of Egypt have become familiar, there is no substitute for witnessing at first hand the glittering treasures of Tutankhamen's tomb, the quiet intrigue of the hypostyle hall at Karnack, the beautiful setting of the Temple of Isis at Philae or standing over-awed at the feet of the colossal statues of Ramesses II at Abu Simbel. This epic tour encompasses all of these iconic sites and so much more. Starting with the Old Kingdom and the 'Age of the Pyramids' and ending with the Ptolemaic Dynasty and the Romans, we take a journey of a lifetime as we explore Upper and Lower Egypt travelling through the millennia.

Tour Highlights

- Journey to the Middle Nile and discover the city of the heretic pharaoh Akhenaten at Tell el-Amarna
- Admire the exquisite artistry of the special tombs of Nefetari, Seti I, Sennefer and Rekhmire
- Enjoy privileged access at Tapaposiris, conjectured to be the site of Cleopatra's burial
- Spend a whole day at Saqqara where we discover sites seldom viewed by the casual visitor

This recently refurbished Nile cruiser is comparable to a good 4* hotel and has four decks. There are two restaurants, a main restaurant on Deck A and an outdoor restaurant on Deck D. Day 1 | London - Cairo

We depart from London and arrive in Cairo – this buzzing, energetic metropolis that is Egypt's extraordinary capital and a city that Egyptians admiringly refer to as 'the Mother of the World'.

Day 2 | Saqqara

We dedicate today to one of the most archaeologically important sites in Egypt - the sprawling necropolis of **Saqqara**. Here were buried some of the most important officials of Memphis and it was also the place of Egypt's first pyramid. We will discover the 3rd Dynasty Pharaoh Djoser's distinctive **Step Pyramid** complex and the smooth-sided **Pyramid of Unas** as well as the Imhotep Museum (due to reopen late 2023 after extensive renovation). After lunch we return to focus on the lesser-visited parts of this huge site and visit two important tombs, the **mastaba of Mereruka**, a large and complex tomb of the Vizier to King Teti, and the superb **mastaba tomb of Ti** as well as the **Serapeum**, burial place of the sacred Apis bulls in the northern part of the Saqqara complex.

Day 3 | Giza

This morning we visit the best preserved of the Seven Wonders of the World, the **Great Pyramid of Khufu** (Cheops) which towers some 481 feet (147 meters) above the plateau, its estimated 2.3 million stone blocks

each weighing an average of 2.5 to 15 tons. But there is a great deal more to the site. We will also discover the **Pyramids of Khafre and Menkaure** as well as the enigmatic **Sphinx** carved from a knoll of rock left in one of the stone quarries used to provide stone for the pyramids and tombs at Giza. Its face probably represents Khafra, but arguments have been made for Djedefra and recently for the Sphinx being much older than the pyramids themselves. In the afternoon, we visit the **Great Egyptian Museum*** where the world's most extensive exhibitions in pharaonic artefacts can be seen. Among the many treasures on display are the solid gold mask of Tutankhamun, and the Narmer Palette, thought to depict the unification of Upper and Lower Egypt. The new museum is also home to King Khufu's Solar Boat.

Day 4 | Cairo - Beni Hassan - Minya

We set off early for Beni Hassan this morning, winding our way out of the traffic heavy roads of Cairo and onto the fast highway to Minya. The journey will take us around 4 hours as we travel through the desert tracking the Nile. Our goal is the site of **Beni Hassan**, just south of Minya. These rock cut tombs high in the desert cliff overlooking the Nile take a little effort to reach but the view from the top is breath-taking and the tombs are fabulous. These Middle Kingdom tombs are painted, rather than decorated in carved reliefs and covered in scenes of daily life in extraordinary detail. These include scenes of agriculture, crafts, fishing, fowling and hunting. We overnight in Minya, now a small city mostly overlooked by tourists but once a powerful regional capital within Egypt.

Day 5 | Tell el-Amarna

Today we visit **Tell el-Amarna**, one of the most important archaeological sites in Egypt. It is also one of those which is usually ignored or given scant attention by tour operators because there are no monumental structures here. Amarna is, however, the most significant surviving city site from ancient Egypt; the majority having been built over by later settlements. It was also a new Capital city, constructed by Amenhotep IV beginning in the 5th year of his reign. The original name of the city was Akhenaten, the 'Horizon of the Aten', a title corresponding to the actions of the so-called 'heretic Pharaoh' Akhenaten as he later became to be known. The city itself was abandoned after the Pharaoh's death, only 20 years or so after its creation.

Here, we visit the tombs of important priests Meryre and Panehesy as well as the Royal Tomb of Akhenaten, Nefertiti's Palace, and the Temple of Aten.

Day 6 Minya - Tuna el-Gebel - Abydos

Our day starts at the rich and varied archaeological site of **Tuna el-Gebel** which functioned as the necropolis for the ancient town of Khemnu/Hermopolis at the edge of the western desert. It marks the boundary of Akhenaten's city some 11kms from the centre of Tell el-Amarna and is home to one of Akhenaten and Nefertiti's 'boundary stelae' carved into the limestone cliff. We also visit vast catacombs for ibis and baboons, associated with the god Thoth, and impressive tombs, including that of a High Priest of Thoth c300 BC – Petosiris, whose reliefs combine Greek and Egyptian artistic styles. In the afternoon, we continue our drive south to Abydos.

Day 7 | Abydos – Dendera - Luxor

This morning we visit **Abydos**, one of the most sacred sites in Egypt, identified as the burial place of Osiris. The main focus of our visit is the important cult **temple of Seti I** with its fabulous wall decorations, some of the finest of the New Kingdom. The temple is also the home of the only King List still to remain in situ. After a picnic lunch we continue to **Dendera** once the capital

of the Sixth Upper Egyptian nome. Like Saqqara it was the site of burials of sacred animals, particularly cows associated with the cult of the local goddess Hathor. The roof of the temple includes a number of chapels, symbolic mortuary chapels for Osiris. One of these contained the famous Dendera Zodiac, which is now in the Louvre Museum in Paris, but it is replicated here in situ by a circular plaster cast depicting the hours of the day and night as well as the journey of the sun, moon, and stars across the sky.

Day 8 West Bank

This morning we cross the river by motorboat and then travel by coach, to visit the famous **Colossi of Memnon** on the West Bank at Thebes. These two enormous statues of the Pharaoh Amenhotep III stand at a towering 18-metres high and were erected to guard the entrance to the pharaoh's vast and opulent memorial temple. Alas, only traces of that once-great temple remain. Next, we visit the **Valley of the Kings**. Here on the west bank is the necropolis area reserved for royal burials from around 2100 BCE, but it was the Pharaohs of the later New Kingdom period, who chose these once remote desert valley sites for their grand rock-cut tombs. Of over 60 tombs discovered in the Valley of the Kings, only a small number are open to

the public and we enter a selection of these, including the elaborately decorated **tomb of Seti I**, which details the opening of the mouth ceremony. In the afternoon we visit **Deir el-Medina**. This is a special place because here, perhaps more than anywhere else in Egypt, we come closest to the daily lives of a group of individuals living in a community. This was no ordinary community however, but the settlement of the craftsmen responsible for constructing the tombs in the Valley of the Kings, and as such employees of the state.

Day 9 West Bank

This morning we return to the west bank and the **Valley of the Queens** where we visit its most famous tomb, that belonging to the Chief Royal Wife of Ramesses II, Queen Nefertari. The tomb has vividly painted reliefs with inscriptions describing the queen's beauty, sweetness and charm and the decoration is exquisite. We continue to the **Ramesseum**, with its fallen colossus of Ramesses II, an astounding testament to the Pharaohs reign – and the inspiration behind Percy Bysshe Shelley's masterpiece 'Ozymandias'. Later we make our way to **Medinet Habu**, arguably the best-preserved temple of the New Kingdom, filled as it is with a wealth of exemplary paintings, carvings and sculptures. In total, the precinct contains over 7 square kilometres of decorated reliefs.

Day 10 West Bank & Luxor

We start today at the Memorial Temple of Hatshepsut at **Deir el-Bahri**, a stunning shrine cradled by the dramatic natural sculptures of neighbouring cliffs. The site is often regarded as one of the most spectacular and beautiful in Egypt although the temple to which visitors now come, is not the first on the site, nor is it entirely original in its architecture! It is famous for its scenes showing a trading expedition to the land of Punt where the Egyptians traded with the local people for exotic products, including incense trees. Next we visit **Howard Carter's House** – the property used by the archaeologist during his search for the tomb of Tutankhamun and eventual discovery and to round off the day we will visit to the excellent **Luxor Museum**, where we see a masterfully arranged collection of archaeological artefacts and celebrated works of art, including the famous statue of Tutankhamun III, an extraordinary figure carved out of greywacke and an alabaster figure of Amenhotep III protected by the great crocodile god Sobek.

Day 11 Karnak & Luxor

We spend the morning at **Karnak**, exploring the largest temple complex in Egypt, and some have argued, the largest religious complex in the world. In addition to its religious significance, it also served as a treasury, administrative centre, and palace for the New Kingdom pharaohs. Added to by generation after generation of pharaohs over a period of 1500 years, it's a dazzling maze of monumental gateways, obelisks, pillared halls and subsidiary shrines. From Hatshepsut, Seti I and Ramesses II to the Ptolemies, Romans, and early Christians; all have left their mark here. In the afternoon, we visit **Luxor Temple**, linked to the Karnak complex by an avenue of sphinxes, processions would travel along this 1.5k mile route on a regular basis. There were barque shrines where the boats, which carried the image of the god, could be placed and where ceremonies could be conducted. At the end of the day, we embark on our Nile cruise and the first of our 4 nights on board.

Day 12 West Bank - Edfu

Before we set sail today, we make one last visit to the west bank and the **Tombs of the Nobles**. Here we see two of the most splendid non-royal tombs dating to the New Kingdom period, the vibrantly painted burial chamber of **Sennefer** and the intricately decorated funerary chapel of **Rekhmire**. After lunch on board, we start our journey to Aswan, slipping anchor and sailing up the Nile towards Edfu.

Day 13 Edfu - Kom Ombo - Aswan

Today we discover the temples of the gods of Upper Egypt, starting with the **Temple of Horus at Edfu**. One of the country's most magnificently preserved shrines, the construction of which is thought to have spanned an incredible 180 years, from the 3rd to the 2nd century BC. Towering at a jaw-dropping 37 metres, its pylon - or gateway - is the highest among all of Egypt's surviving temples and is decorated with vivid scenes of King Ptolemy VIII destroying his enemies before Horus. The complex even houses a Nilometer, a structure made to measure the depth and clarity of flooding Nile waters. This afternoon we explore the **Temple of Sobek and Horus the Elder** at Kom Ombo and the site's **Crocodile Museum**. The partially restored remains of Kom Ombo's Ptolemaic temple stand dramatically above the Nile and its situation overlooking the river, is particularly picturesque. It is peculiar in its double dedication, reflected in its perfectly symmetrical layout; the eastern

half dedicated to the crocodile god Sobek, his wife Hathor, and their son Khonsu and the western to the falcon god Horus, his wife Tasetnofret, and their son Panebtawy.

Day 14 Aswan

Arriving in Aswan, we make our way to ancient Egypt's southern border to visit the atmospheric ruins of the Ptolemaic **Temple of Isis** in Philae, a labyrinthine complex of chapels and shrines – which were originally dedicated to the goddess Isis. To nineteenth century travellers Philae was 'the pearl of the Nile' set on its own island, with just enough vegetation to make this the archetypal romantic ruin. It was pictured by David Roberts, Frances Frith and a generation of other artists and photographers. These individuals would recognise most of the site we see today but might be surprised

to learn that it is no longer on its original island. After a stop at the High Dam, we continue to the **Quarries** at Aswan, famous as the source of pink granite which was widely used in many pharaonic monuments. We see the spectacular 'Unfinished Obelisk, some 42 metres long and weighing approximately 1,197 tons. After lunch on board our ship, we will visit **Elephantine Island**, the location of the ancient town and temple in Aswan.

Day 15 Aswan - Abu Simbel - Cairo

Today we fly from Aswan to the world-renowned Nubian site at **Abu Simbel**, 140 miles south-west of Aswan at the edge of the desert. Miraculously rescued from Lake Nasser's rising waters after the creation of the High Dam and rebuilt on the western bank, the two massive rock temples of Ramesses II and his favourite queen, Nefertari, were originally carved into the mountainside in 1244 BCE to honour the deified royal

pair. In an effort to prevent the temples' destruction, UNESCO embarked on its first-ever collaborative international rescue effort. This later became the catalyst for a World Heritage list that would help protect and promote over a thousand significant cultural and natural sites around the globe. After our site visit, we fly to Cairo.

Day 16 Cairo - Alexandria

Our day starts at the **National Museum of Egyptian Civilisation**. The NMEC opened in 2017 and is the first of its kind to display the richness and diversity of Egyptian civilization throughout the ages, from prehistoric times to the present day. The museum's exceptional collection includes the royal mummies, which are exhibited in a new interactive display using 21st century cutting-edge technology to go beneath the wrappings and reveal their secrets, in addition to shedding light on the rituals and religious beliefs surrounding mummification in ancient Egypt. After lunch we leave Cairo on the desert road and travel to Alexandria.

Day 17 Alexandria

We spend the day in Alexandria exploring the major monuments of the ancient city. We visit the **Catacombs of Kom el-Shoqafa** an underground labyrinth of decorated tombs from the Roman period, we also visit **Pompeys Pillar**, the site of the **Serapeum**, the temple dedicated to the god Serapis and his consort Isis and one of the most important temples of the Hellenistic world. We explore part of the civic centre of Roman Alexandria at **Kom al Dikka**, with its major monuments including an Odeon type building and a fine house, the **Villa of the Birds**. In the afternoon we visit the **Bibliotheca Alexandrina**, the modern Library, here we will see superb mosaics recovered from the royal palace of the Ptolemies and, hopefully, the Greco Romano Museum due to reopen after 20 years 'under wraps'.

Day 18 Alexandria - Cairo

This morning we explore the **National Museum of Alexandria**, located in a beautifully restored Italianate palace and contains galleries containing artefacts from the Pharaonic, Greco Roman, Coptic and Islamic periods. The Greco-Roman galleries on the ground floor contain some of the material previously on display in the Greco-Roman Museum as well as finds from the programme of underwater excavations being conducted off the coast at Alexandria. Afterwards

we travel on to Abu Sir, ancient Tapaposiris where the Ptolemaic temple and a funerary monument modelled on the Pharos were built on a ridge between lake Mareotis and the Mediterranean. Recently there has been much speculation that it may contain Cleopatra's tomb which as yet, remains undiscovered.

Day 19 Cairo - London

At the end of our epic journey, we return to Cairo airport for our onward flight home.
Please note that on the March departure the tour Days 14 & 15 are swapped around.
